Registration rules for the full-time study students at the Faculty of Electrical Engineering Warsaw University of Technology

1. Students of the Electrical Engineering Faculty are obligated to follow point registration system taking in to account the requirements of the WUT Academic Regulations.
2. The amount of transferred points (ECTS) obtained in a semester is the sum of points assigned to the particular subjects passed in a proper semester.
3. Full registration requirements mean necessity of passing all the obligatory and elective courses assigned to the proper semester and collecting amount of the ECTS credits specified in the study programme for all the former study stages.
4. Meeting full registration requirement specified for the study stage, as well as for all the former stages, causes former stages recognition as passed.
5. Meeting the minimum registration requirements enables registration of student for the next study stage.
6. Lack of academic progress determined on the basis of the student's failure to meet the minimum registration requirements constitutes the basis for striking the student off the register of students.
7. Full and minimal registration requirements for each study stage are specified in the table 1.:

Table 1. Full and minimal registration requirements in the full-time studies

Semester of study	Registration conditions		Acceptable failed courses only from semester	Registration required after semester
	Full (cumulative ECTS points)	Minimal (minimal amount of ECTS points)		
First cycle study				
1	30	16	1	Registration
2	60	42	1 or 2	Registration
3				---
4	120	96	3 or 4	Registration
5				---
6	180	164/160[1]	5 or 6	Registration
7	214			
Second cycle study				
1	30	18	1	Registration
2	60	42	1 or 2	Registration
3	90			

8. Student who does not meet the minimal registration requirements may apply in special and good motivated cases for a conditional registration for the next study stage or repeating a year.
   A full-time first-cycle student or a student of long-cycle Master's studies may be granted registration for a period not exceeding four semesters beyond the nominal duration of the programme. A full-time second-cycle student may be granted registration for a period not exceeding three semesters beyond the nominal duration of the programme. Periods of leave are not included in the calculation of the maximum period of study.
9. Repeating first year in the first cycle study or repeating the first semester in the second cycle study is impossible.
10. Against student, who does not meet the minimal registration requirements and does not submit in the proper term, given by the Dean`s Office Calendar, a petition for conditional registration or for repeating a year or an application for extending the deadline for submission of the diploma thesis, proceedings on striking off the register of students shall be initiated.

[1] For the studies held in English

11. Issues that are not regulated in these regulations are regulated by the Academic Regulations at the Warsaw University of Technology.
